All sales and contracts are made subject to crop losses, or thru other causes over which we have no control.

PRICES—Named in this list cancel all previous lists and quotations and are subject to change without notice. All prices are net and not subject to any discount unless previously agreed upon.

We are strictly wholesalers and do not invite retail trade.

We will gladly quote special prices on items wanted in larger quantities than listed.

In the absence of special instructions, we use our best judgment, but without assuming responsibility. All shipments travel at risk and expense of purchaser. FRUIT TREE STOCKS—AMERICAN GROWN

APPLE SEEDLINGS

We have been in the Apple Seedling business for nearly sixty years, and the extensive trade we have is sufficient proof that our stock and our grades are satisfactory.

There will be a short crop of Apple Seedlings this season, and we advise early orders as everything indicates that there will not be enough to go around. They will not be dug this Fall until they are thoroughly matured, as this is very essential for the best results.

Our Seedlings are largely grown in the rich black soil of the Kaw Valley, in Kansas. They will be given the best of care, handled right, and will be graded properly, which is worth something to the customer. We believe that they will compare favorably with any Seedlings grown in this country.

We can often give our customers the advantage of carload rates to various points over the country, which is quite a saving in freight charges.

APPLE SEEDLINGS (Colorado Grown)

Due to the fact that French Apple Seedlings cannot be shipped into this country after 1930, we have been carrying on an experimental plant in Colorado. We are very much pleased with the Seedlings we have grown out there, and believe we have found a place where we can grow Seedlings equally as good as the French. We are anxious for Nurserymen to try some of these Seedlings, if only for experimental purposes, as we feel they will give satisfactory results.

FRUIT TREE STOCKS—FRENCH GROWN

We wish to call attention to the fact that these goods are sold net at Shenandoah. We take all risk of transportation and pay all charges from France to this place. This is a very important point for customers to remember.

The loss that occurs from these long shipments does not affect our customers as we open the boxes and grade out the damaged seedlings, and guarantee our stocks to be in good condition when it is delivered to the forwarding agent at Shenandoah. We are prepared, however, to quote prices on application, F.O.B. cars Angers, France, and customers paying duties and charges to destination, also taking all risks, or, we will quote prices out of customs at New York, and ship direct from there.

A government inspector is stationed here at Shenandoah most of the winter, and he inspects all imported stocks.
